

GENERAL REMARKS

- 1) The structures are indicated by a double number, the first part of which indicates the chart in which it occurs and the second part indicates the serial number of the structure, e.g. (2.5) means structure 5 in Chart 2.
- 2) The spectra concerning each chapter are given just before the experimental part.
- 3) IR spectra were recorded in liquid film. The values reported are in cm^{-1} .
- 4) PMR spectra were recorded in CDCl_3 . The chemical shifts (δ values) are reported in ppm.
- 5) The melting points, boiling points are uncorrected.
