

C O N T E N T S

Section	T i t l e	Page
<u>CHAPTER - I</u>		
<u>History of Boundary Layer Theory</u>		
1	Concept of boundary layer theory	1
2	Boundary layer in two dimensional incompressible fluid	3
3	Application of boundary layer theory to flow through porous media	5
4	Thermal boundary layers in two dimensional flow	9
5	Basic concepts	12
6	R e f e r e n c e s	20
<u>CHAPTER - II</u>		
<u>Some Problems in Boundary Layer Theory</u>		
1	Asymptotic solution for two dimensional boundary layer along a porous wall in a single flow	26
2	Boundary layer with suction along a porous wall in Howarth's flow	34
3	Boundary layer flow in a convergent channel	45
4	Suction velocity at the point of separation for a boundary layer flow over a flat porous plate	53
5	Approximate solution of Pohlhausen's problem of forced convection in a laminar boundary layer on a flat plate.	57
6	R e f e r e n c e s	76
