|-------------|--|-------|
| | DEDICATION | (i) |
| | CERTIFICATE | (ii) |
| | ACKNOWLEDGEMENT | (iii) |
| | ABSTRACT | (iv) |
| CHAPTER I | General Theory | 1 |
| | References | 12 |
| CHAPTER II | Introduction & Research Plan | 14 |
| | References | 30 |
| CHAPTER III | Experimental | |
| | (1) Reagents, (2) Apparatus & (3) Kinetic Measurements | 37 |
| | References | 40 |
| CHAPTER IV | Results | |
| | a) Effect of concentration of alkaline permanganate | 41 |
| | b) Effect of concentration of alkali | 45 |
| | c) Effect of concentration of amides | 51 |
| | d) Salt effect | 57 |
| | e) Effect of temperature | 61 |
| | f) Determination of relative rates of oxidation of amides | 66 |
| | g) Identification of oxidation products | 72 |
| | References | 74 |
| CHAPTER V | Discussion | 75 |
| | References | 85 |
| CHAPTER VI | Probable reaction mechanism & rate law | 86 |
| | References | 91 |
