	<u>Page</u>
1. INTRODUCTION	1
Fungi on aerial surface of plants	
2. METHODS OF STUDY	3
3. ACTUAL MICROFLORA	8
4. CHARACTERS OF PHYLLOPLANE FUNGI	9
I) Morphological characters	
II) Physiological characters	
A) Nutrition	
B) Radiation	
C) Relative humidity	
D) Temperature	
5. COMPETITION ON LEAVES AND USE OF FUNGICIDES	17
6. OTHER ORGANISMS. PRESENT ON THE LEAVES	18
7. CONCLUSIONS AND FATE	20
