

GENERAL REMARKS

- 1) The structures are indicated by a double number, the first part of which indicates the chart in which it occurs and the second part indicates the series number of structures or reaction e.g. (1.1) means structure 1 in chart 1.
- 2) PMR spectra were recorded in  $\text{CCl}_4$  and  $\text{CDCl}_3$  with TMS as an internal reference. Chemical shifts ( $\delta$ ) are reported in ppm.
- 3) The boiling points and melting points are uncorrected.
