Certificate of Guide	(i)
Acknowledgement	(ii)
General remarks	(iii)
Synopsis	(iv)
Chapter 1 : A Review on the Application of functionalized polymers in organic synthesis	
Introduction	1
Polymer	1
Preparation of synthetic polymer	2
Synthesis of functionalized polymers	3
Structure and Properties of Functionalized Polymers	3
Polymers as Aids in Organic Synthesis Polymer Supported Reagents	6
Anion Exchangers in Organic Synthesis	9
Polymer Supported Reagents : Covalently Attached	20
Polymer Supported Complexes	21
Advantages and Disadvantages of Polymeric Reagents	26
References	33
Chapter 2 : Polymer Supported Reactions : Synthesis of methylene diesters of carboxylic acids	
Abstract	40
Introduction	40
Present work	46
Experimental	47
References	47

Chapter 3 : Polymer Supported Reagents :
Synthesis of Phenacyl esters of
Phenoxyacetic acids

Abstract	60
Introduction	60
Present work	69
Experimental	71
References	80
