

CONTENTS

Chapter	Title	Page No.
1.1.0	INTRODUCTION TO SOLVENT EXTRACTION WITH CROWN ETHERS.	
1.1.1	Introduction	2
1.1.2	Crown Ethers	3
1.1.3	Classification and Nomenclature of	6
	Crown Ethers	
1.1.4	Synthesis and Characterization of	8
	Various Crown Ethers	
1.1.5	Properties of Various Crown Ethers	8
1.1.6	Extraction Equilibria with Crown Ethers	10
1.1.7	Factors Affecting Extraction	12
1.1.8	Distribution of Free Crown Ether	13
1.1.9	Size of Cation	14
1.1.10	Charge on the Ion	15
1.1.11	Nature of Donor Atom	16
1.1.12	Diluents	17
1.1.13	Nature of Counter Anion	18
1.1.14	Scope and Methodology	19
	References	21

Chapter	Title	Page No.
2.0	SOLVENT EXTRACTION SEPARATION	30
	STUDIES OF IRON(III) WITH DIBENZO-18-CROWN-6 FROM HYDROBROMIC ACID MEDIUM.	
2.1.0	Introduction	31
2.2.0	Experimental	32
2.2.1	Apparatus and Reagents	32
2.2.2	Crown Ether	32
2.2.3	Hydrobromic Acid	32
2.3.0	General Procedure	33
2.4.0	Results and Discussion	34
2.4.1	Extraction of Iron(III) as a Function	34
	of Hydrobromic Acid With DB18C6	
2.4.2	Effect of Varying Concentration of	37
	Dibenzo-18-Crown-6	
2.4.3	Choice of Stripping Agents	40
2.4.4	Effect of Various Diluents	42
2.4.5	Effect of Varying Concentration	44
	of Iron(III)	
2.4.6	Separation of Iron(III) from	47
	Binary Mixtures	
2.4.7	Separation of Iron(III) from	49
	Multicomponent Mixtures	
2.4.8	Application to the Analysis of Iron.....	53
	from Rock Samples	
2.4.9	Conclusion	54
	References.....	55

Chapter	Title	Page No.
3.0	SOLVENT EXTRACTION SEPARATION	56
	STUDIES OF URANIUM(VI) WITH	
	DIBENZO-18-CROWN-6 FROM	
	HYDROBROMIC ACID MEDIUM.	
3.1.0	Introduction	57
3.2.0	Experimental	58
3.2.1	Apparatus and Reagents	58
3.3.0	General Procedure	58
3.4.0	Results and Discussion	59
3.4.1	Extraction of Uranium(VI) as a Function of Hydrobromic Acid Concentration with DB18C6	59
3.4.2	Effect of Varying Concentration of	62
	Dibenzo-18-Crown-6	
3.4.3	Choice of Stripping Agents	65
3.4.4	Effect of Various Diluents	67
3.4.5	Effect of Varying Concentration	69
	of Uranium(VI)	
3.4.6	Separation of Uranium(VI) from Binary Mixtures	71
3.4.7	Separation of Uranium(VI) from	73
	Multicomponent Mixtures	
3.4.8	Application to the Analysis of Uranium.....	75
	from Rock Samples	
3.4.9	Conclusion	76
	References.....	77

Chapter	Title	Page No.
4.0	SOLVENT EXTRACTION SEPARATION	78
	STUDIES OF MOLYBDENUM(VI) WITH	
	DIBENZO-18-CROWN-6 FROM	
	HYDROBROMIC ACID MEDIUM.	
4.1.0	Introduction	79
4.2.0	Experimental	79
4.2.1	Apparatus and Reagents	79
4.3.0	General Procedure	80
4.4.0	Results and Discussion	80
4.4.1	Extraction of Molybdenum(VI) as a Function of Hydrobromic Acid Concentration with DB18C6	80
4.4.2	Effect of Varying Concentration of	83
	Dibenzo-18-Crown-6	
4.4.3	Choice of Stripping Agents	86
4.4.4	Effect of Various Diluents	88
4.4.5	Effect of Varying Concentration	89
	of Molybdenum(VI)	
4.4.6	Separation of Molybdenum(VI) from Binary Mixtures	91
4.4.7	Separation of Molybdenum(VI) from	93
	Multicomponent Mixtures	
4.4.8	Application to the Analysis of Molybdenum	96
	from Rock Samples	
4.4.9	Conclusion	97
