

## P R E F A C E

Labour welfare is the target of all world. It has become very wide subject of the world. It is the process by which the professional applies concept to achieve certain goals. Labourer welfare activities play very important role in the life of workers. It is also called as a process of welfare facilities which transforms the total well being of the workers. It has become an integral aspect of industrial organisation in the countries.

In the other words labour welfare activities are very important for peaceful functioning of industry. It plays vital role in Industrial economy and increase the efficiency of the labour.

As regards to India the importance of labour welfare can easily be assessed if we observe the living conditions and working conditions of Industrial labour. India recently has started programme of industrilization, so the need of welfare activities has become great importance for producing the good quality of product for compation in the world market.

The aim and object of the present study is to know the welfare facilities in sangola taluka shetakari sahakari soot girni sangola. The object of my project report is to ascertain the labour activities and received welfare facilities by the management.
