# INDEX

| Chapter No. | Title | Page No. |
|---|---|---|
| 0 | **A Brief Outline of the Project** | 01-07 |
| | 0.1 Introduction..... | 01 |
| | 0.2 An Outline of the Work Done..... | 02 |
| | 0.3 Visits..... | 04 |
| | 0.4 Purchase of Equipments and Books..... | 05 |
| | 0.5 Appointment of Project Fellow(s)..... | 07 |
| 1 | **Subset Selection Problem in Regression** | 08-21 |
| | 1.1 Introduction..... | 08 |
| | 1.2 Subset Selection Problem..... | 10 |
| | 1.3 Brief Review of Subset Selection Techniques in Regression ... | 12 |
| | 1.4 Problems with Existing Subset Selection Methods..... | 14 |
| | 1.4.1 Problem of Subset Selection in the Presence of Outliers..... | 15 |
| | 1.4.2 Problem of Subset Selection in the Presence of Multicollinearity..... | 15 |
| | 1.4.3 Problem of Subset Selection when Error follows Non-normal Distribution..... | 17 |
| | 1.5 Examples..... | 17 |
| | 1.6 Discussion..... | 21 |
| 2 | **Parameter Estimation in Presence of Multicollinearity and Outliers** | 22-40 |
| | 2.1 Introduction..... | 22 |
| | 2.2 Parameter Estimation Methods..... | 23 |
| | 2.2.1 Ordinary Ridge Regression (ORR) Estimator..... | 23 |
| | 2.2.2 Choice of Ridge Parameter..... | 24 |
| | 2.2.3 M-Estimator..... | 24 |
| | 2.3 Canonical form of Regression Model and Estimators | 25 |
| | 2.3.1 Ordinary Ridge Regression (ORR) Estimator in the Presence of Multicollinearity..... | 26 |
| | 2.3.2 Ordinary Jackknifed Ridge Regression (OJR) Estimator..... | 26 |
| | 2.3.3 M-Estimator when Data Contains Outliers..... | 27 |
| | 2.3.4 Choice of Ridge Parameter $r$..... | 27 |

Continue...

| Chapter No. | Title | Page No. |
|---|---|---|
| | 2.4 Proposed Estimator - Jackknifed Ridge M-Estimator..... | 28 |
| | 2.4.1 Bias..... | 28 |
| | 2.4.2 Variance..... | 28 |
| | 2.4.3 Mean Square Error (MSE)..... | 28 |
| | 2.5 Performance of JRM Estimator..... | 29 |
| | 2.5.1 Comparison between the JRM and ORR Estimator..... | 29 |
| | 2.5.2 Comparison between the JRM and OJR Estimator..... | 30 |
| | 2.5.3 Comparison between the JRM and M-Estimator..... | 30 |
| | 2.6 A Simulation Study..... | 32 |
| | 2.6.1 Frequency of Smaller MSE..... | 32 |
| | 2.6.2 Comparison of MSE..... | 34 |
| | 2.6.3 Comparison of MSE for More Than One Outlier..... | 36 |
| | 2.7 Conclusion..... | 40 |
| 3 | **Subset Selection in the Presence of Outlier and Multicollinearity** | **41-58** |
| | 3.1 Introduction..... | 41 |
| | 3.2 Various Subset Selection Methods..... | 42 |
| | 3.2.1 $C_p$ Criterion..... | 42 |
| | 3.2.2 $S_p$ Criterion..... | 43 |
| | 3.2.3 $R_p$ Criterion..... | 43 |
| | 3.3 Example: Effect of Outlier and Multicollinearity on Some Subset Selection Methods..... | 43 |
| | 3.4 Generalized Version of $S_p$ Statistic ($GS_p$)..... | 46 |
| | 3.4.1 Motivation..... | 47 |
| | 3.4.2 Definition of $GS_p$ Statistic..... | 47 |
| | 3.5 Some Results..... | 48 |
| | 3.6 Numerical Examples..... | 51 |
| | 3.7 Choice of Estimator of $\sigma^2$..... | 56 |
| | 3.8 Conclusion..... | 57 |
| 4 | **Subset Selection Technique for Non-normal Error Terms** | **59-77** |
| | 4.1 Introduction..... | 59 |
| | 4.2 Regression Model and Estimation of Regression Coefficients.. | 60 |
| | 4.3 Proposed Method for Subset Selection..... | 62 |
| | 4.3.1 Definition of $NR_p$ Statistic..... | 64 |

Continue...

| Chapter No. | Title | Page No. |
|---|---|---|
| | 4.4 Distribution of $NR_p$ Statistic | 64 |
| | 4.4.1 Q-Q plots | 65 |
| | 4.4.2 Chi-square Test for Goodness of Fit | 67 |
| | 4.5 Some Results | 68 |
| | 4.6 Performance Evaluation of $NR_p$ Statistic | 70 |
| | 4.6.1 Numerical Examples | 70 |
| | 4.6.2 Model Selection Ability | 73 |
| | 4.7 Stepwise Procedure for Subset Selection Using $NR_p$ Criterion | 74 |
| | 4.8 Conclusion | 77 |
| 5 | **Subset Selection in Poisson Regression** | **78-94** |
| | 5.1 Introduction | 78 |
| | 5.2 Poisson Regression Model and Some Basic Terms | 79 |
| | 5.3 Deviance based Subset Selection Method | 81 |
| | 5.3.1 Distribution of Statistic $D_p$ | 82 |
| | 5.3.2 Some Properties of Statistic $D_p$ | 86 |
| | 5.4 Numerical Examples | 87 |
| | 5.5 Stepwise Procedure for Subset Selection Using $D_p$ Criterion | 89 |
| | 5.5.1 Illustration | 91 |
| | 5.6 Concluding Remarks | 94 |
| | **Source Code** | **95-114** |
| | Appendix – I | 95 |
| | Appendix – II | 99 |
| | Appendix – III | 106 |
| | Appendix – IV | 111 |
| | **List of Papers Published and Presented** | **115** |
| | **References** | **116-122** |
