

ACKNOWLEDGEMENT

Words are really inadequate to express my deep sense of gratitude to Dr.V. S. Patil , my Research Guide, for this project. Without his constant encouragement, valuable guidance and criticism too, I could never have presented this dissertation in good time. I am truly indebted to him.

My heartiest thanks to Mr. Sunil Kale for granting me the permission to collect the required data from his office and also encouraging me in my work. I am also obliged to Mrs.Vyajayanti S.Kale for sparing her valuable time in helping me in this project, in spite of her busy schedule.

I also thank all the other personnel's of Nina Foods, who helped me in my research journey & extended their whole hearted Co-operation. The valuable co-operation of my family members in boosting me & encouraging me, will never be forgotten.

Finally I thank S.S. Computers for its help in preparing final typewritten copy of the dissertation.
